

2-part cart : Sasa

⚙️ Status	in progress - Me
-----------	------------------

Sasa:

In short

#1: Elements panel with search

- I want to create the elements into an opening panel (the ones that I already have on the left)
- I want to add new elements in there
- Make it scrollable (up and down if I have many elements)

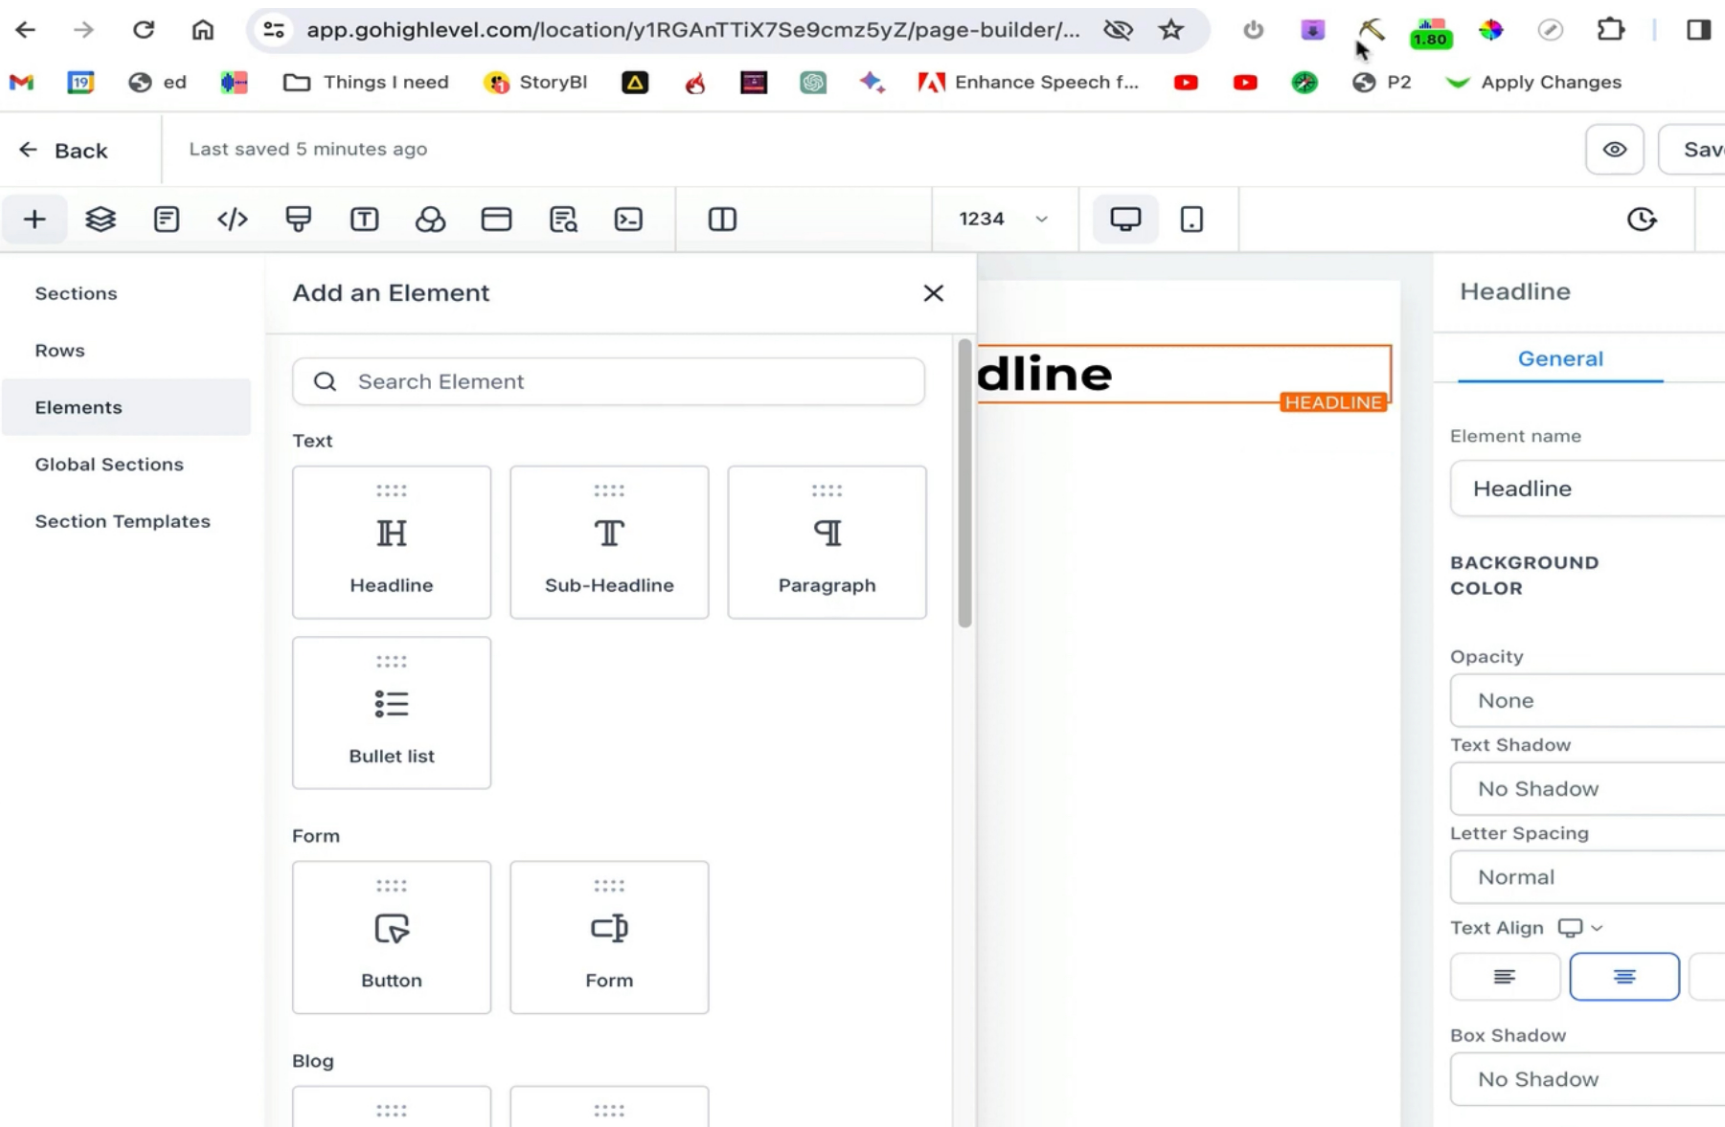

#2 Add the two-step form into the elements

#3 Make properties work for green(container), blue(rows), elements

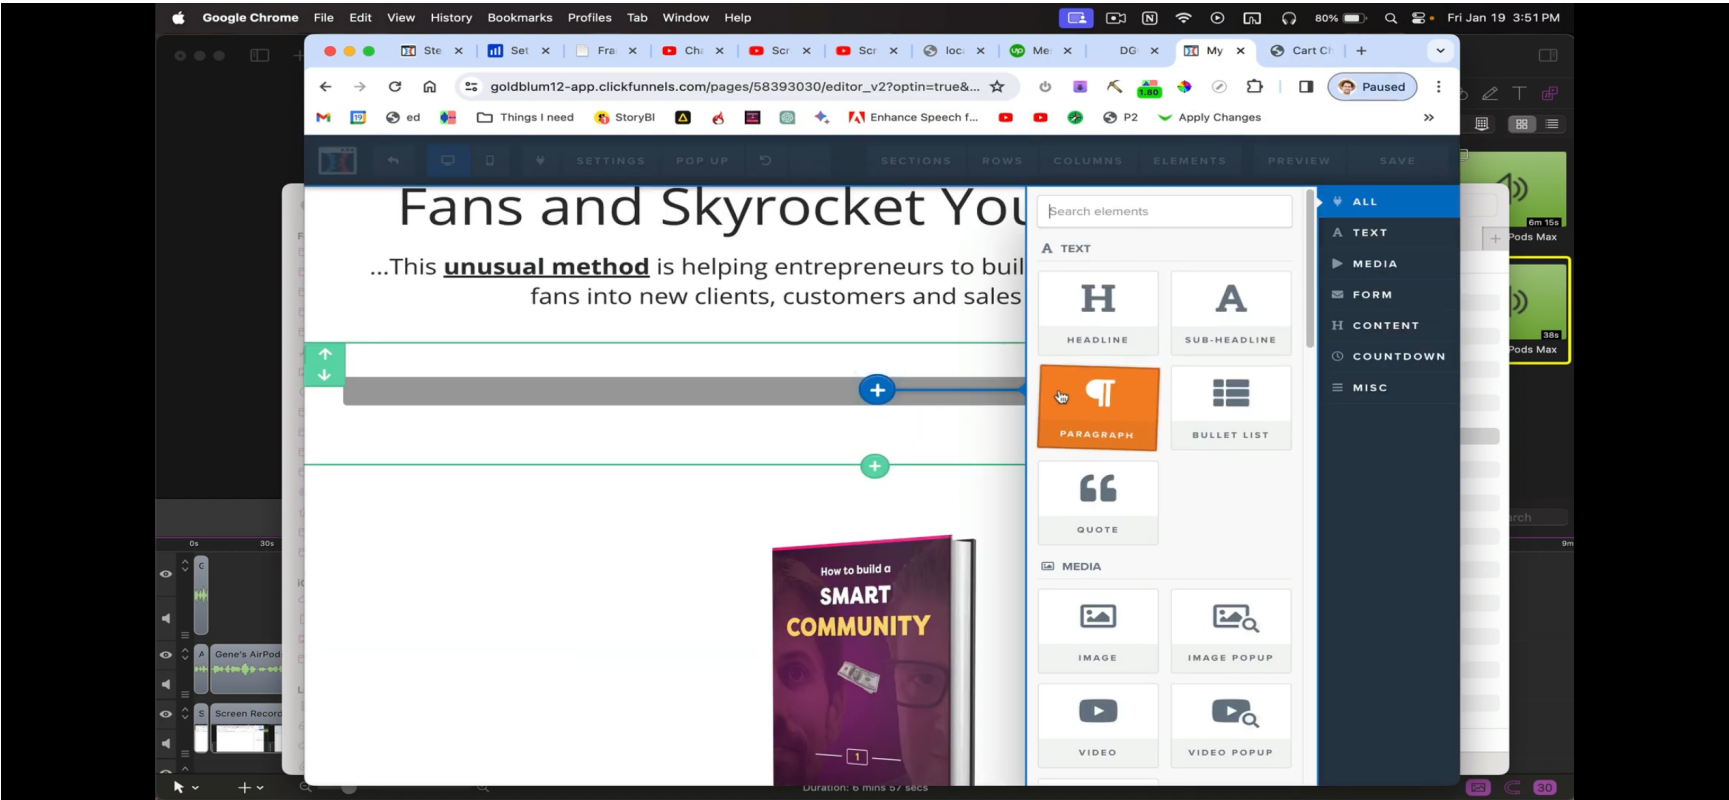

In full details:

#1: Create a panel for elements

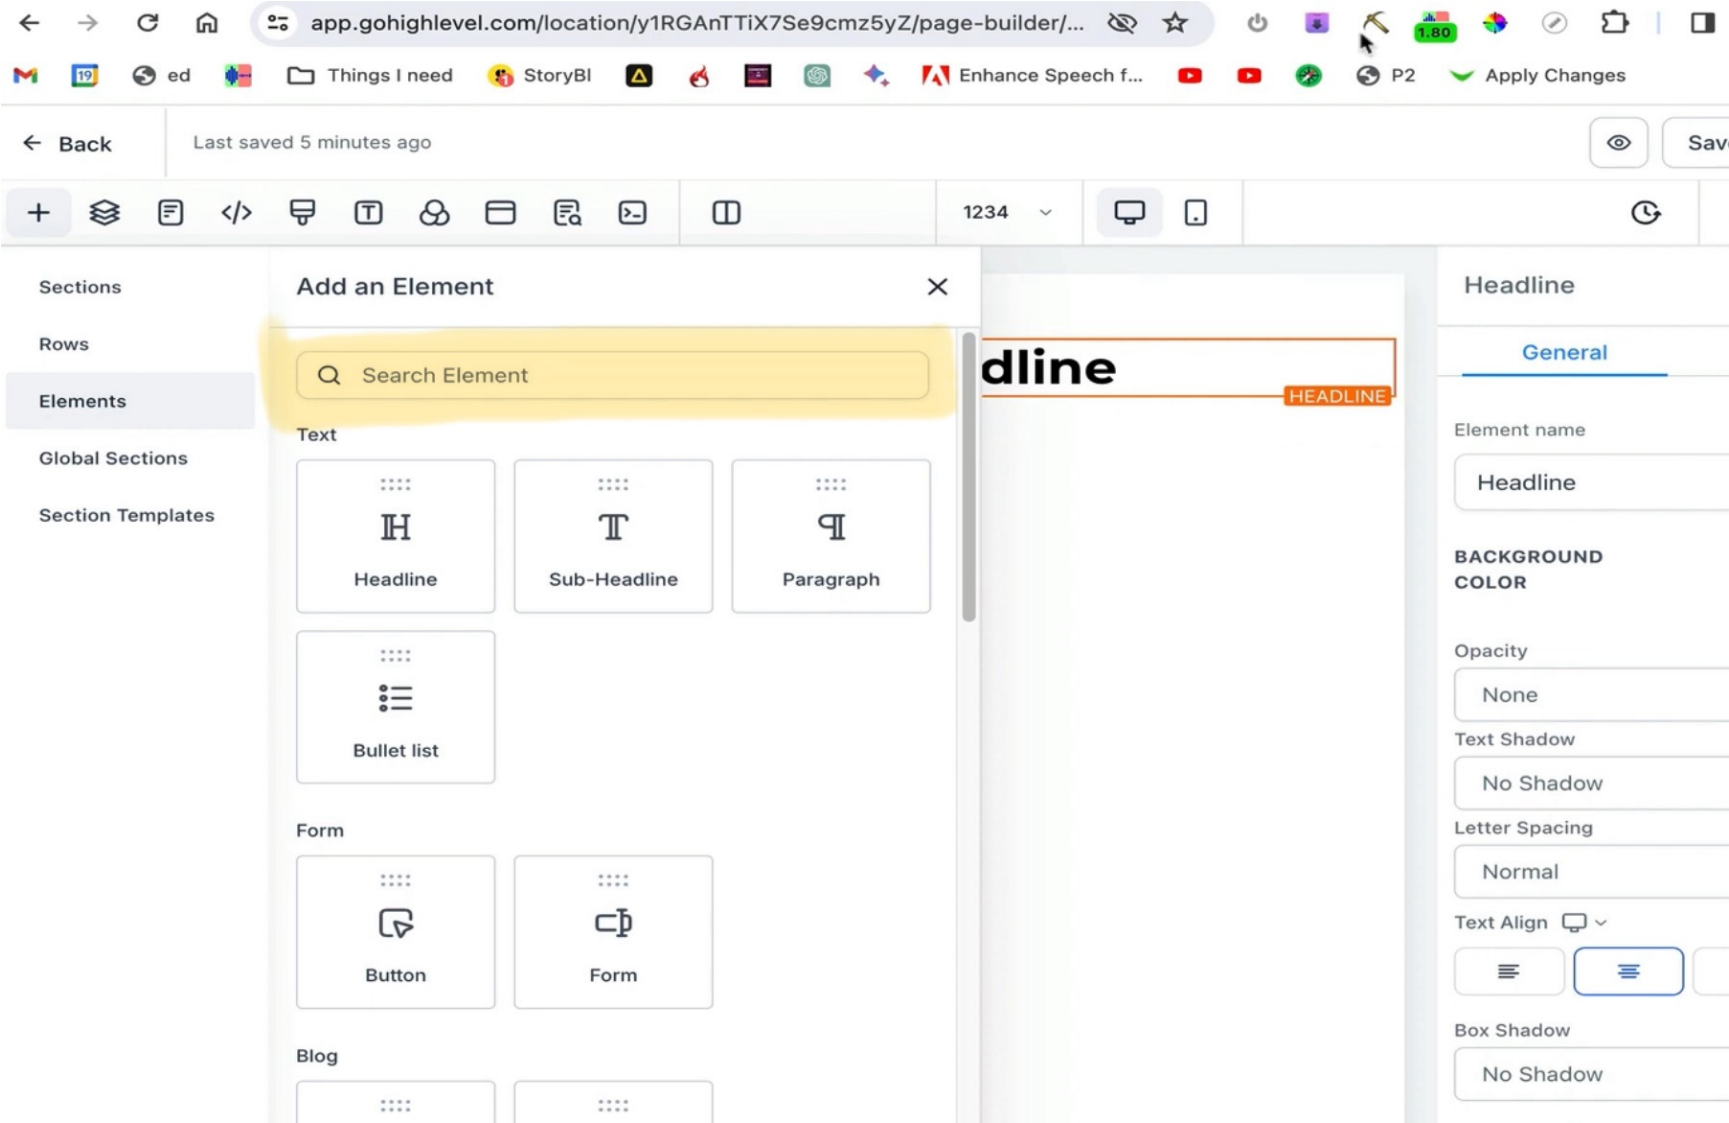

It can be on the left or on the right :

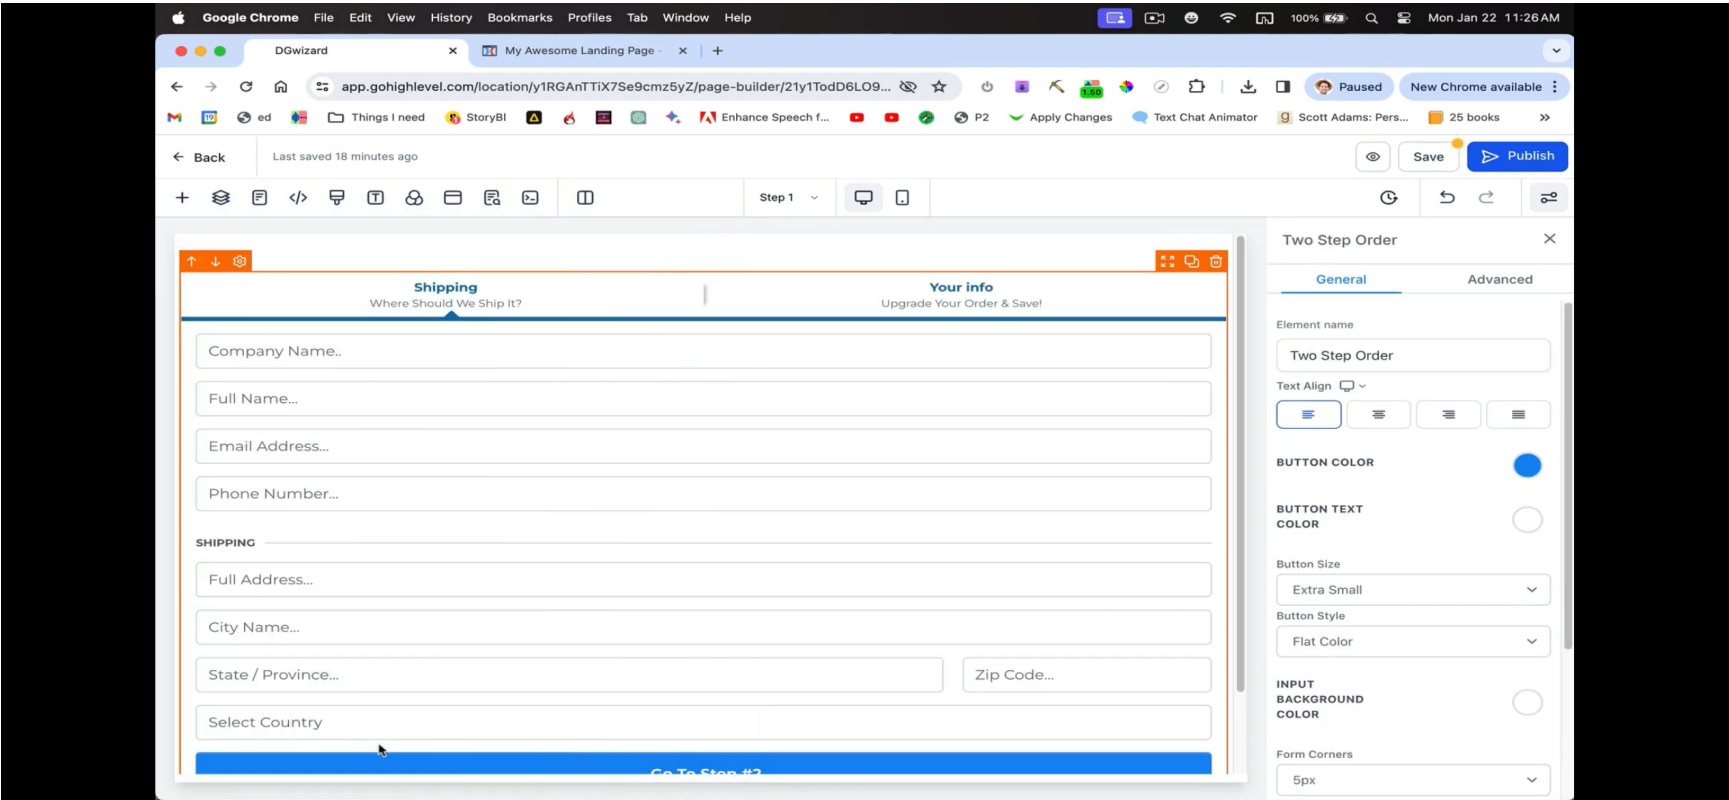

Or like this :

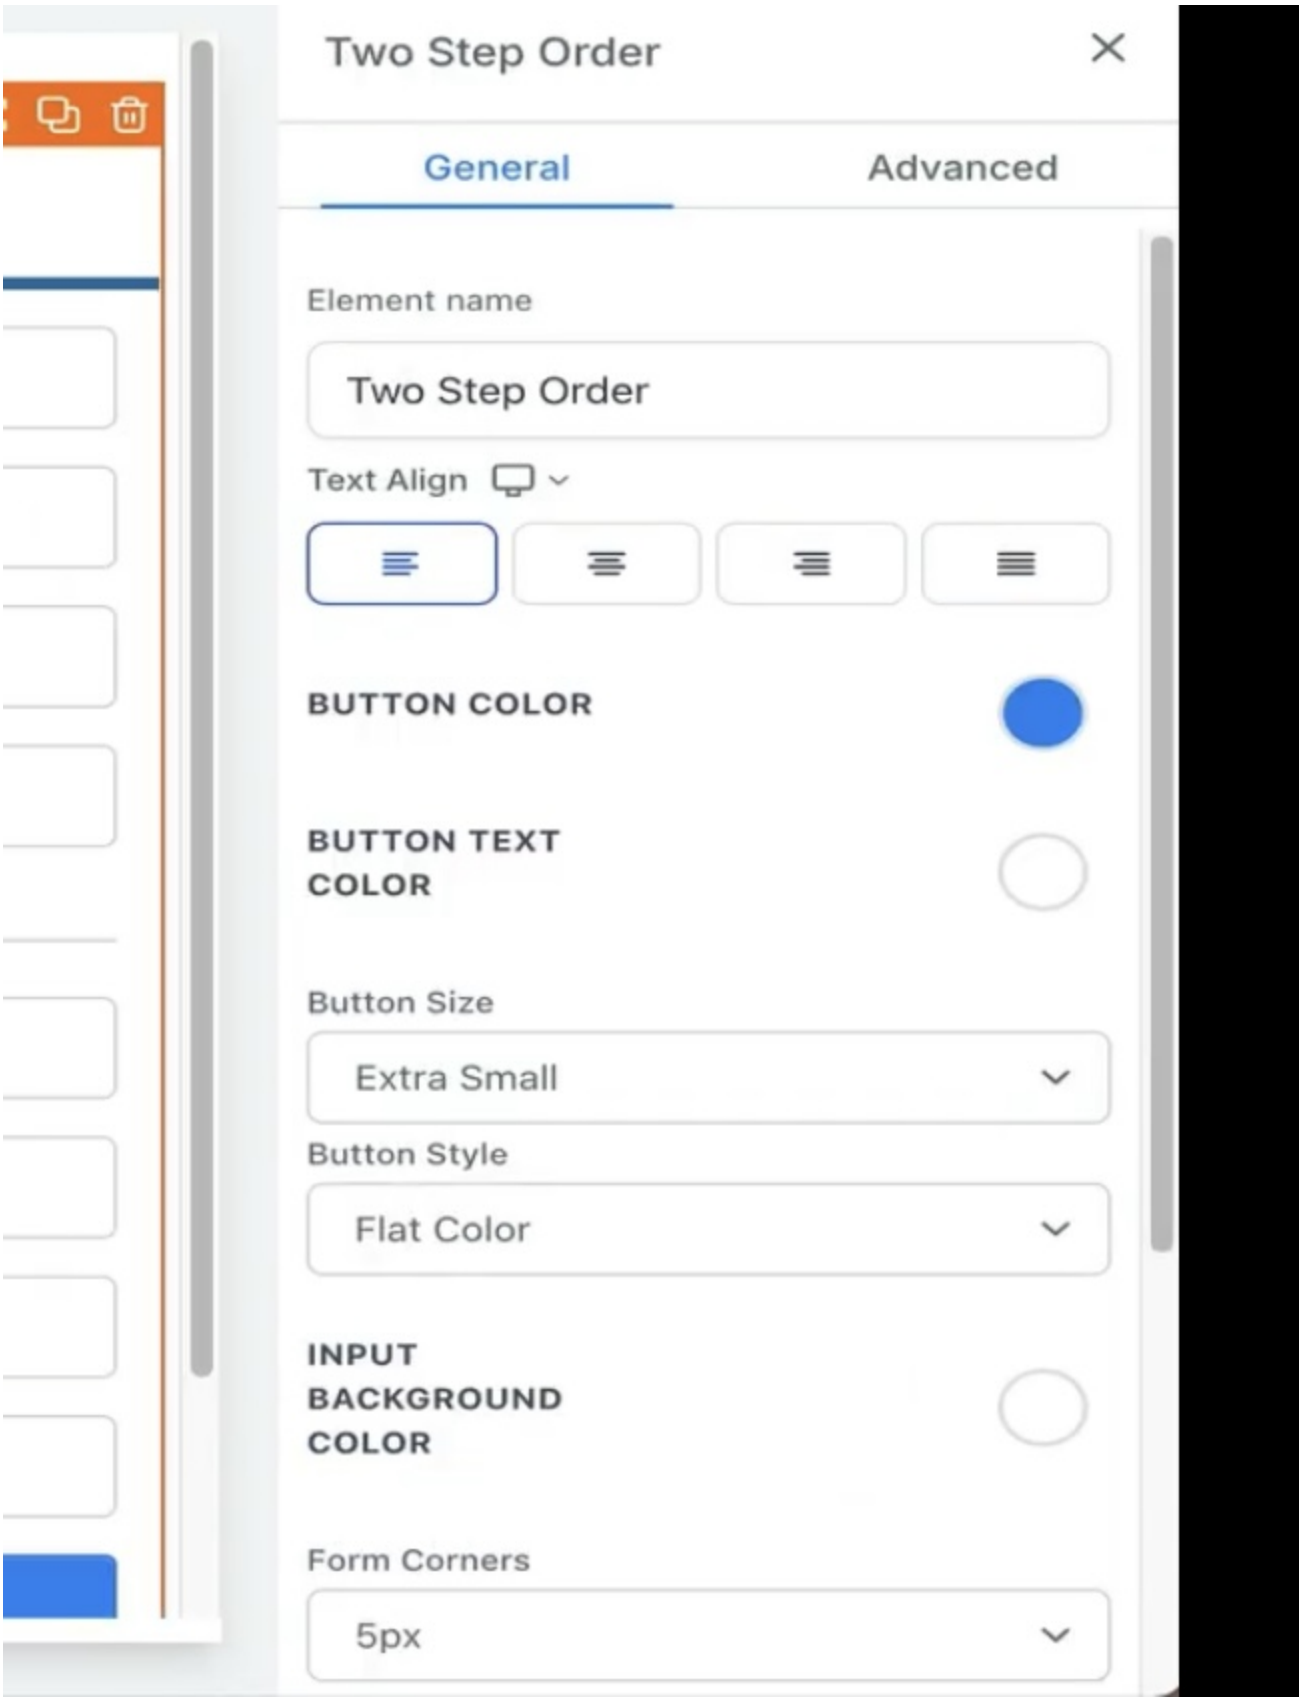

It has to have the search box:

#2: create the “settings” for the 2-step form like this one:

- The general tab which has alignments, button color, and button text color etc

And the advanced tab: “Step 1” and “step 2”
Step 1 headline, step 1 sub headline etc

Your info

Upgrade Your Order & Save!

When you click on the the step #2 on the left it will show the 2nd part of the form:

and the settings will show for the #2 step :

You can see the rest of how this works on the website: (gohighlevel.com)

I will include the html form so you don't have to make a new one

...

#3: make all the properties work in the settings of green, blue, orange divs. (Containers, columns and elements) (⚙️)

Change colors, background , font size etc
